1. Increase Access to Higher Education

During my tenure on the COD Board of Trustees, we implemented Free COD Tuition to all high school graduates throughout the Coachella Valley; Free public transportation for students to get to school, work and back home; and opened new campuses across the Coachella Valley to make going to college closer to home and more accessible for all.

2. Offer a High-Quality Education

As a board member, I pledge to you that I will do everything in my power to keep COD moving in the right direction by winning national and state awards for academic excellence. Our employers need well-trained workers and our students deserve an education to get them a better job and earn a living wage for their families.

3. Support Our Diverse Student Body

The best part about being a community college is that the students represent our diverse community. I pledge to continue providing valuable student resources so our students can thrive.
